

# Tapestry

resource kits order form

## Are you interested in accessing resources for specific cultural groups?

The Cancer Council has developed a large range of culturally and linguistically diverse resources relating to cancer prevention, information and support. It can be difficult for a health professional or welfare worker to keep up to date with the volume and variety of different resources available.

For this reason The Cancer Council has put together a range of information kits in specific languages. These kits contain culturally specific information in 14 community languages about:

- Healthy nutrition
- Screening for bowel cancer
- Quitting smoking
- Breast self-awareness
- Screening for breast cancer
- Screening for cervical cancer
- What is cancer?
- Diagnosing and treating cancer
- Eating well and relaxing when you have cancer
- Palliative Care

The kits are **free of charge** and are available from The Cancer Council. To order **copy** this form, complete it and **fax** to 291 4268 or send to Clara Tait at **The Cancer Council South Australia, PO Box 929, Unley SA 5061**
