

Information sessions for our community.

The risk of cancer increases as we get older, but did you know that at least one in three cancers diagnosed can be prevented?

There are a number of things you can do to reduce your cancer risk— participate in cancer screening programs, have a healthy diet, limit alcohol consumption, maintain a healthy weight, be physically active, be SunSmart and be smoke free.

Cancer Council SA offers a range of different activities to promote important cancer prevention messages to your community, service providers, clubs or special interest groups.

To promote the cancer prevention message in your community, we can:

- present an information session
- attend expos, field days and other community events
- provide articles for newsletters and publications
- provide information, resources and promotional material.

What topics do we present?

- Bowel cancer screening
- Reducing your cancer risk
- Skin cancer prevention and early detection.

Topics can be tailored to suit a specific audience so please let us know what interests your sector.

Book a **free session** today by completing this expression of interest form and return via email prevention@cancersa.org.au, fax **08 8291 4268** or post to **PO Box 929, Unley BC SA 5061**.

For more information, please call Tamara on **08 8291 4189**, or email prevention@cancersa.org.au.
